Live Chicken and Fowl!

Shipping Day Tuesday, Nov. 11th.
The following prices will be paid at Cham-
pion:

No. 1 Fowl, over 5 lbs., per lb.	10c
No. 1 Fowl, 4 to 5 lbs., per lb.	9c
No. 1 Fowl, under 4 lbs., per lb.	8c
No. 2 Fowl, all weights, per lb.	5c
No. 1 Spring Chicken, over 5 lbs., per lb.	11c
No. 1 Spring Chicken, 4 to 5 lbs., per lb.	10c
No. 1 Spring Chicken, under 4 lbs., per lb.	9c
No. 2 Spring Chicken, all weights, per lb.	5c
Old Roosters, all weights, per lb.	5c

These prices compare favorably with all other lists we have seen and we would advise anyone having chickens to sell to bring them in on this day

Champion Meat Market

Truck Turns Over In Deep Ditch

En route to Calgary on Monday morning in a truck, Mr. and Mrs. R. H. Wellman and Mrs. Wellman Sr. suffered severe injuries when, crowded by a passing truck their vehicle took to the ditch, north of Vulcan, turning completely over and leaving the passengers lying on the wreck of the cab. Mrs. Wellman Sr. suffered the worst injuries, being badly cut about the head while Mrs. Wellman suffered less severely, although stitches were required on her head. Mr. Wellman was considerably bruised and received several small cuts. The women were removed to the Vulcan hospital where they received attention and Mr. and Mrs. Wellman were able to proceed to Calgary on Tuesday, leaving the former's mother in the hospital until Thursday when all returned home and are able to be around.

The turkey shoot advertised at Mr. Wellman's for Saturday Nov. 8, will be held on that date.

KLEIN-SMITH

A quiet wedding took place on Saturday, November 1st at the home of Mr. John Klein when his son Samuel Klein was united to Miss Christine Smith. The service was held by Rev. Anhorn at two o'clock. Supper started at 3.30. The bride was dressed in white satin with veil and carried a bouquet of flowers. A large crowd was present and everybody had a fine time. The bride was presented with a large number of presents, including money. About 100 guests were present. Thanking everyone for their kindness.

To introduce the New Bake Easy Shortening, the Champion Meat Market is selling 1 lb. packages at 10c per lb., for one week only. Regular price 20c per lb.

Boxing Contest November 14th

✓ Jimmie Mahon, former junior welterweight champion of British Columbia, and Billy Draine, lightweight champion boys, Alberta, will appear in the Community Hall here in a 10 round bout. Four other contests will also be staged. The promoters promise a real evening's entertainment for those who attend. See posters for particulars.

Jimmie Mahon

High School Notes

The Champion high school literary society has been reorganized for the ensuing term. Harry Taylor was elected president and gives a promise for a term of excitement for the members of the society. The first meeting will be held on Friday Nov. 31st at 2:00 p. m., in the United church. Visitors will be charged a small fee to help cover expenses.

A Halloween party was held in the public school for the Literary Society on Friday October 31. A large crowd attended helping to make the party a big success. The welcoming of the students was very cleverly worked out. The students were met at the foot of the darkened stairway by a skeleton and after seeing how they would look after death were led into the furnace room which was cleverly transformed by someone's vivid imagination into a second Hades.

There were a great variety of good costumes as everyone consumed for fear of the penalty of fine. The prize for the best ladies costume was won by Miss Archer and the prize for the best gent's costume was won by Robert McCullough. Before supper numerous exciting games played in which everyone partook with equal interest.

Lap lunch was served and after supper ghost stories were told. After singing Auld Lang Syne the revellers departed, each one declaring he had spent a very enjoyable evening.

Mr. Baker had a very exciting adventure with ghost in the darkened stairway of the girl's basement in the public school on Halloween night. He thought for a moment that he was dead and floating around in oblivion but everything must have turned out right for he attended school this week.

A great misfortune befell the girls of the refreshment committee on Halloween night. The window of the room where the refreshments were kept was open and some boys who were looking for fun got away with a rake and a pie. There was no shoutage however as the crowd wasn't very hungry.

A new and unusual type of "service" has been added by certain gasoline filling stations and service stations in the larger cities of Canada. This consists of running a vacuum cleaner over the cushions, door panels, and carpet of the car while other attendants are taking care of the gasoline and oil. No charge is made for the vacuum cleaning, the proprietor of the station "getting his" through the credit of good will with the customer. It is understood that big oil companies are considering general application of the new idea—Automotive World.

The November 11th meeting of the Women's Institute will be at the home of Mrs. V. A. Summers. Roll Call—"War Heroes." Mrs. Cain gives a book review. Mrs. Dean Smith is convener.

School was closed on Thursday and Friday, the members of the staff attending the Teachers convention at High River. As Monday is Thanksgiving Day, there will be no school until Tuesday.

Dr. and Mrs. Freeze are at Missula, Montana, for a few days.

Advancement Made In Canada For Providing Indian Population With High Standard of Education

(By Russell T. Ferrier, Superintendent of Indian Education.)

Great advancement has been made in Canada, particularly in late years, in providing our Indian population with a high standard of education and vocational training. Through the aid of increased appropriations by Parliament during the past few years, the Department of Indian Affairs has been enabled to enlarge existing buildings, construct more modern and fire-proof schools, while higher salaries and grants have attracted better qualified teachers and instructors.

There are now 78 residential schools and 271 day schools, making a total of 350 centres of Indian educational activity. The total number of pupils now 15,743, the average attendance being 11,570, constituting an increase during the past ten years of 28 per cent. In enrolment, and 48 per cent. in attendance, ample evidence of the success of the work in preparing Indian children to become independent and self-supporting citizens of the Dominion.

The residential schools are conducted by the Anglican, Roman Catholic, Presbyterian, and United churches, and high tribute must be paid to the zeal and self-sacrifice of those engaged in the work. The Department has the close co-operation of religious denominations in the education of the Indians, and this well-established policy has demonstrated beyond all question of doubt the effectiveness of the system.

The formal opening of the modern residential school at Brandon, Manitoba, on July 18, 1930, adds another unit to the fine system of Indian educational institutions throughout the Dominion. It will be administered by the United Church of Canada and will have as its principal the Reverend J. A. Doyle, D.D., who succeeded the veteran educationist the Reverend Thompson Ferrier.

This school, which replaces the residential school built on the same site in 1884, is one of the finest of its kind in Canada. Built of tapestry brick with trim of granite, stone, and terra cotta, it is fire-proof throughout. Some idea of the accommodation afforded may be gleaned from the fact that it has a fine large assembly hall, four dormitories, four class-rooms, a large study room, recreation room for both girls and boys, sewing room, sunroom, hospital ward with nurses' quarters, also a laundry equipped with the most modern hygienic appliances.

Adjacent to the school are a number of first-class farm buildings, one of which, the cow-barn, is one of the finest in Manitoba. There are, also, four residences for the use of the principal and married members of the staff.

The institution has a landscape setting, which places it on a par with some of the finest schools and colleges of the older provinces.

This school draws its pupils from a wide radius, owing to the central location of the reserves. Residential schools are required because many of the Indians are engaged in occupations such as lumbering, fishing, freighting, and trapping, which take them away from their homes; and even the farms of those engaged in agriculture are not in solid blocks, as in white settlements, but are strung out along rivers and lakes, thus making it impossible to provide day school accommodation for the major portion of them.

The curriculum provides academic instruction equivalent to the second year in high school. In addition the girls are given a thorough training in domestic science, and the boys, a course in agriculture, together with elementary training in carpentry, blacksmithing and the operation of internal combustion engines, sufficient to enable them to apply it in a practical manner in modern farm life.

While every possible effort is made to impart a sound academic and industrial education, special attention is given to the home of the Indian. During the years spent in the residential school, the children are taught to be self-reliant and to take pride in their work.

"What a pity. Baby fell out there."—Buen Humor, Madrid.

W. N. H. 1862

Until schools medical treatment is provided, which, with a balanced diet and supervised recreation, assists in the building up of a robust constitution.

Under the care and tutelage of the Department of Indian Affairs the Prairie Indians have become a successful agriculturalist. The official records for 1928 show that 65,104 acres, in the Prairie Provinces alone, were sown to grain, from which were garnered 65,104 bushels. In addition, 971 acres were planted to root crops from which 61,446 bushels were harvested; and 87,765 tons of hay and other fodder were produced.

Daylight and Twilight

Hours of Day and Night Nearly Equal At the Equator

In the tropics, near the equator, there is nearly equal hours of day and night obtain the year round. The extremely short twilight which comes at this locality is proverbial. Kipling's lines picture the dawn coming up like thunder; but generally speaking, in the temperate zones, there is less an hour from the exact time of sunsetting until it becomes totally dark. Twilight, the transition period between daylight and darkness, increases in length as one goes north or south of the equator. It has been stated that at 5,760 hours which make up a year, there are at the equator 4,407 hours daylight, 864 twilight and 3,489 night; while at the pole the proportion changes to 4,450 hours daylight, 2,403 twilight and 1,913 night.—Christian Science Monitor.

Egg Laying Contest

Eleventh Canadian Contest is Conducted At Ottawa Experimental Farm

Championship of the 11th Canadian egg laying contest which has just concluded at the central experimental farm at Ottawa, goes to a pen of white leghorns here entered by Richard Green, of Farrington Park, Preston, England. Second place honor went to Mrs. W. J. Thompson, of Birch Hills, Sask., with a pen of barred Plymouth Rocks, while third place was taken by a pen of Rhode Island Reds, entered by the University of British Columbia. The contest was held over a fifty-two week period.

The best laying individual bird in the contest was a Rhode Island Red, "No. 225," entered by Dan Russell, West Westminster, B.C. It completed a total score of 287.8 points for 249 eggs.

Second individual honors went to a barred Plymouth Rock, "No. 262," entered by Frank Experimental Farm, Moncton, N.S., with a total score of 284.9 points for 248 eggs. Third place was taken by a white Leghorn, "No. 194," and owned by J. K. Duggan, Cobblehill, B.C., total score 283.7 points for 244 eggs.

Scores for the leading pens in the length contest follow: Richard Green, Farrington Park, England, pen No. 50, scored 2,176 points for 1,984 eggs; Mrs. W. J. Thompson, pen No. 18 (second), 2,174 points for 2,228 eggs; University of B.C., pen No. 33, 2,168.3 points for 2,174 eggs.

The fact that the English pen won the championship although the second and third honor birds made up the total laying performance than the winners, is explained by the rules which the contest under which the size and weight of the eggs figure in the point scoring.

Out of a total of 800 scoring entries in the 80 pens which made up the contest, only 142 qualified for official registration during the year.

Pure Bred Stock

Four Ayrshire Heifer Calves Go To Experimental Farm At Windsor, B.C.

Four Ayrshire heifer calves which were purchased by Capt. Dan Waters and Shirley, B.C., at the recent sale of Ayrshires at the University of British Columbia, have been offered to and accepted by Dr. E. S. Archibald, Director of Experimental Farms on behalf of the Dominion Experimental Station at Windsor, B.C. These heifers—Auchtermuchty, Minnie's Pamy, Muncrae Valentine's Polly, Netherhall Lovely Melinda and Nethermug Majestic Beauty were all imported in dairy and are of exceptionally good breeding.

Great Ayrshire Cow

High Record Of Milk Production From Cow At Indian Head Experimental Farm

The R.O.P. record of Tolkhorghum Dorothy (82210), owned by the Experimental Farms at Indian Head, shows this Ayrshire to have given 15,351 pounds of milk, 600 pounds of fat in 365 days of three milkings a day in the mature class, honor roll division. This is the highest record so far this year in this class and is Dorothy's third consecutive record.

Have Exclusive Language

Outaged to find most of their company among their own sex, the women of India have developed a real freemasonry of sex, so that in certain parts of India even exists a woman's language which men cannot understand.

Canadian Hay Crop

Ample Supply In Sight In Most Of The Provinces

The seed branch of the Dominion Department of Agriculture reports the total hay yield in Canada for this year is likely to be slightly less than in 1929. They find, however, that an ample supply is in sight in most of the provinces and a substantial exportable surplus is probable. The quality of most of the 1930 crop is well above average, particularly with respect to color.

The hay yield in the Maritime Provinces is expected to exceed last year with a large surplus for export, particularly of timothy and dylke hay. Prince Edward Island cut a good crop and the combined surplus of the Maritime Provinces is placed at 35,000 tons.

The Quebec hay acreage was about the same as in 1929, but the yield per acre was greater. There will be about 200,000 tons available for commercial use.

The hay crop in eastern and northern Ontario shows a big gain with about 75,000 tons over local requirements. Western Ontario had only a small surplus and the commercial surplus of alfalfa will be limited to about 3,500 tons.

In western Canada, Manitoba and Saskatchewan, Ontario put up 30 per cent. more hay than last year, sufficient to take care of the home demand. The Prairies have large quantities of slough hay, which will be available to the drought areas of Saskatchewan. In Saskatchewan, the hay situation is even more difficult than it was last year, while in Alberta timothy and alfalfa were a good crop, with well hay below average. Alberta will have about 3,700 tons of hay for sale. The British Columbia crop is variable but estimated to be sufficient to take care of most of the needs of the province.

Detailed information with respect to the hay crop of Canada will be obtained by writing to the Markets Division of the Seed Branch, Department of Agriculture, Ottawa.

Apples and Potatoes

Revised Estimate Of Apple and Potato Production Throughout Canada

The final revised estimate on apple and potato production throughout Canada, prepared by the markets division of the Dominion Department of Agriculture, places the apple crop this year at a total of 3,165,936 barrels. This is well up to the five-year average while nearly 750,000 barrels below last year's crop. British Columbia shows an estimated increase in production of about 450,000 barrels while Nova Scotia's crop is about 600,000 barrels, below last year.

Canada's potato crop is estimated at 47,262,400 cwt., an increase of approximately 7,500,000 cwt., or ten per cent. over last year.

The onion crop in British Columbia is reported to have matured very well but to be considerably lacking in size. The estimated yield is placed at 10,308 tons. The Ontario onion crop estimated at 18,000 tons, has matured well under favorable conditions and is 20 per cent. greater than in 1929.

Confirmed Criminals

Dr. Sheldon Gluck, assistant professor of criminology at Harvard law school, has reported that results of a recent survey tend to show four-fifths of the prisoners at Massachusetts state reformatory fall back into crime at least once within five years of their parole. The report covered the records of 500 prisoners, released between 1911 and 1922.

Open New C.P.R. Offices

Handsome new offices of the Canadian Pacific Railway have just been opened at Quilliet Avenue and Chatham Street, Windsor, Ont. Above the offices, the location of these offices, the opening of which was made the occasion of a large gathering of C.P.R. men from every department of the company's activities as well as of representative citizens from Windsor. Interiors show His Honor Cecil B. Jackson, Mayor of Windsor, cut the ribbon that served to tie the front entrance of the building.

Says Security Of Our Future Depends On The Courage Of Farmers Of Western Canada

Screening Feeds Officially Graded

Low Prices Should Make Them Profitable For The Farmer

Canadian farmers will be particularly interested in the following statement issued by the seed branch of the Dominion Department of Agriculture:

Screenings shipped for feed from terminal elevators are now being sold under grade certificates, under the new grade standards and designations provided by the Canada Grain Act or regulations thereunder. Refined screenings, consisting essentially of broken wheat and wild buckwheat, are now designated "No. 1 Feed Screenings."

Starched screenings, consisting of broken wheat and wild buckwheat, are now designated "No. 2 Feed Screenings." This grade also allows a slightly greater tolerance of broken wheat than No. 1 grade, and would be specially serviceable for feeding sheep.

The product formerly known as "Out Screenings" and consisting mainly of wild oats, but with small percentages of domestic oats and barley, is now designated "Mixed Feed Oats." Terminal elevators, needed for the storage of wheat, are carrying substantial quantities of these grain by-products which are, in consequence, being offered at much lower than the usual prices. Mixtures of barley and oats of this grade are available at 80 cents per cwt. sacks included, delivered at Montreal, Sorel and Quebec.

Any danger from the presence of weed seeds in these nutritious grain by-products would be corrected by grinding by fine grinding and high power hammer grinders, and this fact, together with the low prices at which they are now available, should render them profitable to the Canadian feeder, even at the present low prices for animal products.

Soil Improvement Train

Campaign In Quebec For Securing Greater Yields

A soil improvement train has just completed its three weeks' itinerary through southeastern Quebec, having started at Outokook on September 15th and finished at Vercheres on October 4th.

The train was organized by the Quebec Department of Agriculture in co-operation with the Agricultural College of the province, the seed branch of the Dominion Department of Agriculture, and the C.N.R. and was a campaign now under way in Quebec for securing greater yields from a more intelligent and more general use of agricultural lime and commercial fertilizers.

Of the four coaches which made up the train, the first was used as a laboratory for making samples and analyses brought in by visiting farmers, were tested for acidity and recommendations given as to the approximate quantity of lime required according to the results of the acidity tests.

The second car was devoted to showing the advantages from the proper use of agricultural lime, the third, those of commercial fertilizers, while the fourth was the lecture car in which lectures were given by the officials in charge on the use of agricultural lime and commercial fertilizers.

Upwards of 10,000 farmers visited the train in the course of its tour and about 5,000 soil samples were tested.

Glasgow Port Opened For Cattle Shipments

Rate is \$15.00 Per Head From Canadian Atlantic Ports

Two important developments in the cattle export trade occurred when Hon. Robert Weir, Minister of Agriculture, announced that the steamship companies had agreed to open a service from Canadian Atlantic ports to Glasgow at a rate of \$15 per head. Hereafter, the cattle boats have been to Liverpool. Mr. Weir has the shipping companies to fall into line on ocean rates, at a level of \$15 per head. One of them had been charging \$20.

He regards the opening of the Glasgow port, centre of a large feeding area, as of importance. The Scottish cattlemen, he said recently, are more interested in buying feeder stock, while the Liverpool trade dealers at cattle ready for killing.

A total of 18,029,913 telegrams was transmitted and received in Canada in 1929, an increase of 1,172,753 over 1928. There are 360,883 miles of telegraph lines in Canada.

Urging the people of eastern Canada to lend their moral and financial support to the citizens of western Canada during their present trying period. E. B. Ramsay, chief commissioner of the Canadian Board of Grain Commissioners, addressing the Canadian club at Toronto, recently, declared that upon the courage of western farmers to keep to their land and maintain production lies security in the future.

Farmers must be encouraged to continue to produce until consumption has grown to absorb production.

"Western Canada is well up against it," Mr. Ramsay said. "There is no doubt about that. They have had two unprofitable crops on their lands, the first due to short prices and the second to very low prices."

Continuing, the speaker declared the western provinces were in need of help. "I do not mean monetary help," he said, "for the west will always pay its debts as it has done in the past. But it needs the moral help of every man and woman in Canada to tide over its present difficulties. The thing of prime importance now is to keep the western farmer in full production until consumption increases to take care of it."

"We need a view of the market to express our view on the market are wrong five minutes after they start," Mr. Ramsay said. "I don't think anyone knows anything about it. We are doing a good export business in Canada. If that keeps up of heavy crops from last year may be diminished."

"Last year it was the fashion to make conditions on the wheat pool. This year, it is Russia. I don't believe either has had much to do with it. It was just one of those periods of time that happened from time to time."

Easterners were inclined to underestimate the ability of western farmers, he contended. "There are a great many statements flying around in the press and on the streets which seem to believe to credit the western farmer with little common sense or gumption," he said. "My own experience is that the western farmer is a very fine type of business man."

"He is not going to be stampeded and he is not going to abandon his farm. I have always thought that the biggest difficulty the western farmer has is the assurance of the stability of his tenure on the land; in other words that his work was going towards the building up of his home."

"He doesn't want to have to move. There is a saying in the west that two years, it is a farm. I don't see a fire, that money will be lost."

"It is a fact that he holds in his own power a great deal of ability to lower the cost of production. He can live off the land and he will do that before he will leave his farm."

"Mechanized farming to introduce large-scale operation in western Canada would mean national disaster, in my opinion," Mr. Ramsay said. "I think that there is a real place on the farm for some mechanical assistance," he said, "but I think it is a national calamity if the farm home gave way to mechanized farming."

"We need that population on the prairies. The big difficulty this country must face is to keep those people on the land until conditions remedy themselves."

Pickie Lovers

Thousands of hearts were broken in England since January 1, 1930, the office marriage certificates reveals. Figures from this office show that more than 2,500 licences were returned by tickle brides and bridegrooms since that date.

A working man's family spends on the average, \$140 a year on doctor's bills and other medical expenses, according to a statement from the U.S. Department of Labor.

"Darling, listen to my plan." "But you are too far for me." "I will think over it until tomorrow." "But I shall be older tomorrow."—Musketeer, Vienna.

HEADACHES

Ended by Kruschen

"I was a martyr to headaches, with frequent attacks of dizziness often making my task. My occupation is a very ordinary one—a printer's reader. I gave Kruschen Salts a good trial, and then on towards I seemed quite another person. The headaches disappeared and the dizziness, and the most wonderful thing to me was to have gone back to weaker glasses, a lens which I had worn some years ago as it had been strong enough to have gone back had circulation during the early morning of my year. Now at 51 I can enjoy old balls all the year round, enjoy and on for my food, and can eat what I consider very fit—the sort of fitness that makes living a joy."—(G. F.)

Headaches can nearly always be traced to a disordered stomach or to partial constipation—a complaint many indoor workers suffer from without ever suspecting it. Kruschen Salts go right down to the root of the trouble and remove the cause by gently procuring the organs of elimination to function easily as Nature intended they should.

WORLD HAPPENINGS BRIEFLY TOLD

France's newest submarine, the Promethee, a long-distance cruiser of 1,500 tons, has been launched successfully. The ship is 290 feet long.

A flight from Montreal to Paris in the spring of 1931 is the hope of Rudolph Page, French-Canadian private and commercial pilot of Montreal.

The end of the present season will find the air operations department of the Ontario forestry branch with a new record of over 14,000 hours flown during the year.

Edmund A. Gullion, 17-year-old American youth, won the fifth International Oratorical contest held at Washington. Paul Leduc, 17-year-old French-Canadian, was second. Youth of eight nations competed.

General V. I. Karpoff, one time commander of the Chinese military forces at Tientsin, under the late Marshal Chang Tso-shan, has abandoned his military career to become a monk.

W. F. Lambie, the British Government's assistant deputy trade commissioner in New Zealand, has been transferred to Canada, and will take up his duties in Winnipeg in December.

Empire delegates to the Imperial conference saw 27 Canadian types of British aircraft in action at Croydon Airport, England. Prime Minister Ramsay MacDonald was present for the performance, executed in honor of the overseas visitors.

Question of more severe penalties for the adulteration of butter is under the consideration of Hon. Robert Weir, Minister of Agriculture. A request for such action was recently made to Major Weir by the Montreal Produce Association.

No decision has been reached to conduct an investigation into the cost of constructing the new Montreal bridge, states Sir George Perce, acting prime minister. Sir George was asked in respect to the cost of the government proposed to institute such an inquiry.

Keeping Down Weeds

Good Work Carried On In Alberta This Year In Connection With Weed Eradication

Good work was done in Alberta this year in the keeping of soil free from weeds. It was reported at a meeting of the advisory weed board at the Parliament Buildings at Edmonton. The activities of sixteen supervisors were reviewed under the direction of E. L. Gray, field crops commissioner. Recommendations from the board will go to the Department of Agriculture as to next year's work, for which some important undertakings will be suggested.

Largest All-Canadian Lake

Great Bear Lake in the Mackenzie district of the North West Territories, Canada, is generally admitted to be the largest body of water wholly within Canadian territory. Its area is approximately 12,000 square miles.

First Atlantic Steam Crossing Built in Quebec in 1853 and Canadian owned, the "Royal William" was the first vessel to cross the Atlantic under steam power alone.

Reverse Only Temporary

Britain Not Likely To Abandon Imperial Air Program

In its stunning effect upon the public consciousness, the disaster to the R-101 may be likened to that which overtook the "Titanic" before the war. But the loss of the largest, finest and fastest trans-Atlantic liner that had been built up to that time has not prevented the British from continuing to produce great ocean-going vessels. In fact, plans now on the stocks or projected even in site, speed and superb furnishings anything ever before contemplated. The terrible mishap to the R-101 will doubtless delay Britain's dream of an all-embracing Empire air service, if only for the reason that so many of her air experts have been lost. But it may be taken for granted that the British will not abandon the Imperial air programme of which we heard so much on the recent visit of the R-100 to this country. All down through her history, the Mother Country has displayed a genius for converting failure into success; for turning temporary reverses into lasting triumphs. Toronto Mail and Empire.

Brilliant Triumph Scored

By Kingford-Smith

Australia Has Proved Himself One Of World's Greatest Aviators

If the British Empire suffered any loss in aviation prestige through the recent disaster that befell the R-101, that prestige would seem to be restored by two outstanding aviators who came. These were the flight of a Canadian aviator, Captain Errol Boyd, from Newfoundland to England, and now the brilliant triumph of Wing-Commander Kingford-Smith of Australia in flying from England to his own country with such speed as to clip more than five days from the previous record. Kingford-Smith completed this 10,000-mile flight in the remarkable time of nine days, 23½ hours as against the 15½ days it took Bert Hinkler, the previous record-holder, to make this trip in 1928. Kingford-Smith's time is the more impressive in view of his limited physical resources, and his late. Shortly before his flight he had undergone two operations and had experienced other illnesses, and now he was flying with his doctor not to make the flight.

The view is expressed that this Australian aviator's achievement is of a more impressive nature even than those of Col. Lindbergh, the first to cross the Atlantic, and of a flight from New York to Paris and whose achievements in the air at home and in neighboring countries were so great that his doctor not to make the flight.

The view is expressed that this Australian aviator's achievement is of a more impressive nature even than those of Col. Lindbergh, the first to cross the Atlantic, and of a flight from New York to Paris and whose achievements in the air at home and in neighboring countries were so great that his doctor not to make the flight.

CHAMPION CHATTER

VOL. 3

Thursday, Nov. 8, 1939

No. 44

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

You can tell what a smart guy he was. He always looked both directions when he was crossing a one-way street.

Horace Johnson has returned from several days in Calgary and says, "There's nothing to report."

You can't pick a tick with a pickle.
You can't cure the sick with a sickle.
Pick flies with a figment.
Drive pigs with a pigment.
Nor make your watch tick with a tickle.
You can't stocken your goat with a goatie.
You can't get a crate from a crater.
Catch moles with a molar.
Bake rolls with a roller.
But you can get a wall.

Replacing an old, worn-out machine with a new one of larger capacity is just like putting money in the bank.

Have you seen and heard the new Baby Grand Philco, it sells complete for \$80.00. Dynamic speaker, 7 tubes (3 screen grid). It's a wonder folk.

Frank Caldwell said he heard this one at a family reunion last summer.

She: "Everytime I come to Iowa I have to change to my heavy undies. I'm from Georgia, you know."

"What's the trouble with that young Scotch student?"
"Oh, he just got a line and then remembered they were his room-mates shoes."

"Good Equipment Makes a Good Farmer Better."

Mr. and Mrs. D. D. Farmer are on a trip to Calgary.

E. Sharp and family moved to the Cook farm to take charge for the winter.

D. D. Farmer sold his fox ranch, located at Claresholm, to a Granat purchaser. Some forty pairs of foxes were included.

F. Clever received word on Thursday of the death of his grandfather at Los Angeles. Mr. and Mrs. Martin Clever of Calgary were with him.

K. R. McLean, R.O. of McLean & Anderson, Sight Specialist 208-81 Ave West, Calgary will make his monthly visit to Champion Friday, Nov. 21st, at the Drug Store.

E. Hamilton, Pioneer Grain Co. agent here, has been in the hospital at Calgary for some days suffering from sciatic rheumatism. After having his tonsils removed he is reported as recovering.

L. B. Ohlheimer left for Calgary to spend Thanksgiving.

Strayed

Black gelding, 3 years old, white star in forehead. Little white on one hind foot. C. Iverson, Phone 1568, Champion.

The Pit Stock Show is over and the Champion participants have all returned and they seem to be well pleased.

Brown McDonald was to the fore along with McDonald's this year. Continuous winning by the progressive stock men is like Mc-Dr. service. It's no accident. Congratulations, boys.

"How are you getting on keeping bees?"
"Well, We have not had much honey, but the bees have stung my mother-in-law several times."

Did you hear of the dark lady who attended the Pullman Porters' picnic?

Wm Penn Motor Oil "Sull the Best."

ALBERTA

For two weeks in succession great trouble has resulted in the paper being issued a day late. The only connection to the staff is the amount of interest in the paper such a happening develops. The rest of it is "unadventurous."

IN THE ESTATE OF RANSOM M. COLE, late of Long Beach, California, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named RANSOM M. COLE, who died on the 4th day of July 1939, are required to file with the firm of McLaws Hedman Loughheed & Cairns, Barristers and Solicitors, 604 Herald Building, City of Calgary, Alberta, the Solicitors for Margaret J. Cole, the Administratrix, with Will Annexed of the Estate of the said Ransom M. Cole, by the 20th day of December A.D. 1939, a full statement duly verified of their claims and of any securities he held by them and after that date said Administratrix will distribute the assets of the said deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her notice.

Dated this 6th day of November A.D. 1939.
D. F. McLaws Hedman Loughheed & Cairns,
Solicitors for Margaret J. Cole.

SEALED TENDERS addressed to the undersigned and enclosed "Tender" Building, Drumheller, Alberta, will be received until 12 o'clock noon, Thursday, November 23, 1939, for the construction of a public building at Drumheller, Alberta.

Plans and specifications for the building of the tender are available at the office of the Chief Architect, Department of Public Works, Ottawa, the Resident Architect, Asst. Resident General's Office, Calgary, Alberta, and the Postmaster, Drumheller, Alberta.

Tenders will not be considered unless made in accordance with the conditions set forth herein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender, and the tender must be accompanied by a cheque if required to make up an odd amount.

Notwithstanding the above, the tender may be returned if the tendering bidder submits a regular bid.

By order, DESJARDINS, Secretary.
Department of Public Works,
Ottawa, October 26, 1939.

will be in Champion Thursday

afternoon, at Farmer's Hardware.

Local and General

B. M. Roberts was in town on Thursday.

Mrs. M. Brown of Nanaima is visiting her sister, Mrs. F. M. Watts.

Word has been received that the hunting party from Champion has secured six moose and a deer.

R. Maxwell has purchased the interest of D. W. Harper in the barber shop conducted by the latter and will continue the business.

The C.W.L. are holding a chicken supper and bargain table, of value not over one dollar on Dec. 6, from 5 to 8 o'clock.

Mr. and Mrs. John Cook have moved to Calgary where they will reside for the winter. Mrs. A. D. Nelson accompanied them to the city.

Watch for our announcement of Turkey shipping day, to be arranged for as early as possible in December.—Champion Meat Market.

Mrs. Fred Clever was a bridge hostess on Friday evening. The prizes were won by Mrs. Bell, Mrs. Watt and Mrs. Ulrich, 1st, 2nd and consolation, respectively.

McDougall Bros. and Brown McDonald sold some fine stock at the Calgary show at very satisfactory prices despite the present depressed values in almost every line.

Dressmaking—House dresses, quilts made to order, coats re-lined, sewing and mending. First class work at very reasonable prices.—Mrs. G. McDermott, phone 74.

Hallowe'en was celebrated very much as usual this year. Apparently everyone had a good time, particularly those who moved the implements, etc., to the front street. At large it is a pity some of the surplus energy was not devoted to something which was more generally appreciated.
